

# Granma – A Cuban Piece on Fidel, Che, Sirohi and other Parties

By Fidel Castro

Introduction

By Lenar Williams

I argue this a short recent phase of Algerian victory as well – you know our history, we failed right at the start – but are succeeding again recently – we are objective on this fact of history that black

people have won with Sirohi – I call him a humanist, a practical humanist – we argue we live and that's Communism. These notes are just reflections on our conversations on humanism and healthcare, but also a merger with education and Yunan ongoing with India and its comrades in Algeria in fact from my side.

# I. Cuban History and recent Philosophy with Sirohi –

how the process of recent Cuban victory then is also in fact a Philosophy of Hegel and Marxism merged – recent edits on the organic ensemble of leaders and parties participating in the mass protest –

by Fidel Castro

So the process of  
Communism is now  
clear to the liberals in  
Europe and even  
perhaps other parts of  
the world. Sirohi is  
embracing the Christian  
liberation of the people  
with the Pope of Vatican  
and is also healing  
women he is falling in  
free love with as a

Communist from  
Alexandra Kollontoi's  
perspective in fact. And  
the Soviet leaders are  
back in health which is  
a material fact of the  
development of  
Communism.

In fact we mean  
Communism is an  
essential force in the  
humanist sense of even  
medicine and  
psychoanalysis and is a  
humanist theory and

practice – in fact a  
humanism and just its  
practical humanism in  
Sirohi as well.

We are objective on the  
liberal Europe not  
caring about  
Communism in Cuba or  
even the mass line in  
China.

II. Philosophy of Hegel  
– recent innovations

By Shomit Sirohi

And therefore the mass line is the correct line in Cuba, Algeria, China, Israel and India – it is this process we call reflecting on the historical movement of the poorest.

Europe is a liberal compromise with EU and high economics I

am talking to with each  
on Deterior in fact  
sharing in Jewish  
manners and spirituality  
– health is also a  
spiritual and material  
fact of what is called a  
humanism of the type  
which embraces the fact  
of living and life-spans  
and medication and is a  
living fact now of our  
achievement as  
scientific medication  
which begins with a  
meditation on Cuban

healthcare system being refined and back with a Jewish addition in Israel and perhaps India with Deterior and my own experiences.

We mean be spiritual and humanist – that is the essence of reflection.

Hegel is a way of meditating I add in the sense of a refined institutional syntax

which helps talk in idealism – so that Communism remains a philosophical object as well. Thank you for the liberation theology of the poorest.

### III. Judaism and Reflections

By Isiah and Isikiel from Zionism in Israel

And so we are objective  
finally – all history is  
objective – please  
celebrate spiritual  
certainty and such  
happiness that we are  
talking and sharing on  
Jewish financial  
Deterior – and we are  
now even ecological  
supporting ethicists –  
we love the process  
from Sirohi, young and  
a Prophet. In fact we  
mean he is recent news

with Israel and has won in India.

IV. Mass Line, People's Power and History as a Objective Fact of Liberation – why Mao is also with Trotsky celebrating Historical victory of Progressive Humanism – how Health is a process followed by Cuba

By Ernesto Che Guevara

I mean only to argue the people, the poorest is what matters – and health for a small section of black rights people and Hebrew classes with them – we have won – thank you to Sirohi – we are also in a long reflection of many works, books, manuscripts, and

conversations and  
reflections and method  
from Sirohi in fact along  
with his teaching of  
philosophy over lectures  
for educating women  
and his lovers in free  
love and feminism – just  
beautiful we thank you –  
Cuba is a success.  
Perfect that India has  
won a liberal party  
process – of CPI, CPIM  
and CPIML with the  
Congress – glad that we  
are in India today

talking and sharing as Jewish people and Pope and even Ulamas from Iran and Pakistan are arguing.

Glad Sirohi is objective and materialist – the Orientalism on Islam is not the only thing – we argue he is called a modern leader of an Islamic type in the sense of a theological figure of a modern type we mean. We love this,

thank you for organizing the meaning of humanism, but also personal reflections. I am Che, talking to Fidel at his house these days because of Sirohi and his kindness in assisting us to meet – he is that personal a leader.

V. CPSU again – Years after a failure – again Victorious and

# Humanist – Thanking Sirohi

CPSU from Istabal  
Mesravan – we thank  
you as black people are  
saying, and we have  
won, we thank you for  
leading the women –  
Sirohi is just a cool  
person like that. Love  
this, thank you.
